A Sure Way To  
End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and itching of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.—Adv.

TWENTY YEARS AGO TODAY

The dancing clubs are arranging for their reorganization for the coming season. A meeting of the Helianthus members will be called for the early part of next week, and plans for their winter dances will be made.

The Tivoli club will meet Sunday afternoon at 3 o'clock at Kellam hall to discuss their program for the club season.

The Lame Duck club expects to dance again this year. This club is a small organization which holds its dancing parties fortnightly at the Country club. Their parties will probably begin in October, and they will soon make their arrangements for their music for the season.

The return of the college men for the winter signifies an early opening of the dancing season for the Varsity club.

Mr. John Nicholson is asking a few friends to be his guests at a dinner-dance at the Throop hotel Friday night of next week.

Miss Blanche Buttershill will give a slumber party tonight at her home in Putnam place. Her guests will be: Miss Marjorie Fulton, Miss Lucile Sims, Miss Sara, Miss Edna, Miss Annie Laurie Closs, Miss Frances Dolan, Miss Corinne Smith and Miss Florence Dolan.

Word has been received in Topeka of the marriage of Miss Dorothy Cooper and Mr. Edward Kettering, which took place Wednesday in Toronto, Canada. The bride is a sister of Mrs. Hal Hazlett, of Topeka, and a daughter of Mrs. A. P. Cooper, formerly of Abilene, now of Toronto. Mrs. Hazlett is in Toronto, where she spent the summer with her mother and sister. She will return home soon. The bride and her mother were in Topeka last spring visiting Doctor and Mrs. Hazlett.

Mrs. George White and her little son, George Henry, of San Diego, Cal., went to Concordia today to visit Mr. White's sister, Mrs. Otto Kienle. They have been visiting Mr. and Mrs. L. L. Kienle in Topeka. Mrs. Walter Weidinger entertained the following guests at dinner for Mrs. White: Miss Day Jordan, Miss Louise McNeat and Miss Edna Hopkins.

Mrs. White formerly lived in Topeka. Before her marriage she was Miss Ra Hotchkiss, a popular Washburn college and sorority girl.

Miss Marguerite Kienle and Miss Katherine Harrison spent a short time visiting friends at the state university, Lawrence. They were guests at a dinner given by the Kappa Alpha Theta girls, and at a Beta dance.

Additional pledges by the K. U. fraternities are announced. A number of Topeka men have been pledged. Mr. George O'Rourke will be a Phi Gamma Delta; Mr. Victor Blakely and Mr. Fred Rigby are pledged to the Sigma Chi; The Beta Theta Pi is wearing colors for Mr. George Meadows and Mr. Charles Meadows, and Mr. Thomas Crawford is a pledge of the Sigma Nu.

Mrs. Carl Woodbury Nellis and her daughter, Marguerite, will return September 20th, from Denver, Colorado, where they have been visiting Mrs. Nellis' parents, Mr. and Mrs. Edwin Lange, formerly of this city. They will be accompanied by Miss Carlotta S. Nellis, a graduate of the Topeka high school, who will spend the winter here with her brother, Mr. Carl Woodbury Nellis, 1127 Kansas avenue, and her father, Mr. Daniel W. Nellis, 815 Buchanan street. Miss Nellis has been specializing in domestic science at Simmons college, Boston, and later in New York, and in Oakland, California.

You remember the man whose wife left the electric fan running when she went away for a three weeks' vacation trip? That man is the model husband for whom the world has long been searching. This fond couple went for a lake trip. Just before they left, the wife bought a hat, a neat little bonnet, for which she paid the modest sum of \$20. The first day they were on the lake, a gentle breeze blew across the deck and swept the smart hat from the wife's head. The chapeau lies somewhere in Lake Michigan. As soon as the couple landed, the husband bought a new hat for his wife, with never a reproach, never a warning to pin it on good and tight, and not so much as a look that the servant from his cash caused a single pang.

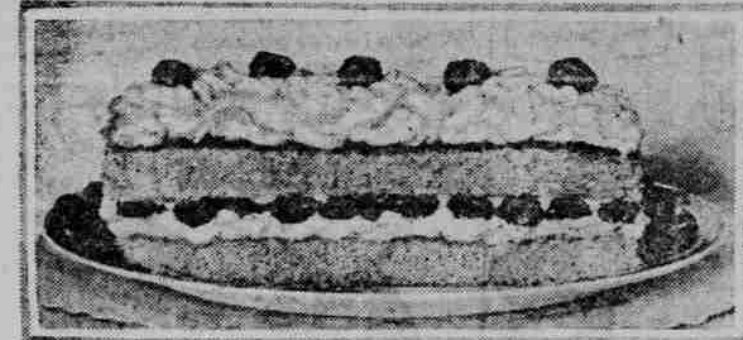

Mr. and Mrs. D. T. L., who used to live in Topeka and are now in Oklahoma, were in town this week at one of the hotels. D. T. L. is a resourceful genius, and he has devised a scheme for taking care of the baby while he is off on the numerous trips that his business requires. He is one of the faithful who always takes his wife and child with him when he travels. To obviate the need of taking along a baby buggy or a cradle, he has thought out a new scheme for putting the baby to bed. He simply pulls out one of the bureau drawers, makes it soft and warm with blankets and a pillow, and chuckles the child into it. He is so enthusiastic over his scheme that he has talked of getting it patented.

Notes and Personal Mention.  
Miss Ardelle McArthur of Kansas City is the guest of Miss Gertrude Anderson this week.

Mr. and Mrs. William B. Collinson are the parents of a daughter born this morning at Stormont hospital.

To Help Nature Shed  
a Bad Complexion

Beauty devotees are enthusiastic over the beautifying qualities of mercolized wax. Nothing discovered within recent years accomplishes so much, so quickly, without harm, at such small expense. The principal reason for its wonderful merit lies in the fact that it removes the impurities of the skin, fuses, freckles or blotch surface skin, gently, gradually, causing no inconvenience. It is Nature's way of renewing complexions. When the natural process is retarded because of deficient circulation or nerve tone, mercolized wax comes to the rescue and restores the skin to its normal condition. The new complexion which appears is a natural one, youthful, healthy and equally beautiful. If you've never tried mercolized wax, get an ounce of it at the drugstore, use it night like old cream, washing it off in the morning. Another natural beautifying treatment—for wrinkled skin—is to bathe the face in a lotion made by dissolving an ounce of powdered salicylic acid in a half-pint of water. This is remarkably effective and instantaneous. —Advertisement.

## Raspberry Shortcake

By CONSTANCE CLARKE.

It is wise to give special attention these days to our sweet dishes; much refreshing nourishment is to be found in these, if daintily prepared. Raspberry shortcake is a delightful change for dessert. Beat one-half cup of butter to a cream, add one cup of sugar, and three beaten egg yolks, beat several minutes, and then add the whites.

Alkali Makes Soap  
Bad For Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain mulified coconut oil for this is pure and entirely greaseless. It is very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out the dirt and dandruff.—Advertisement.
